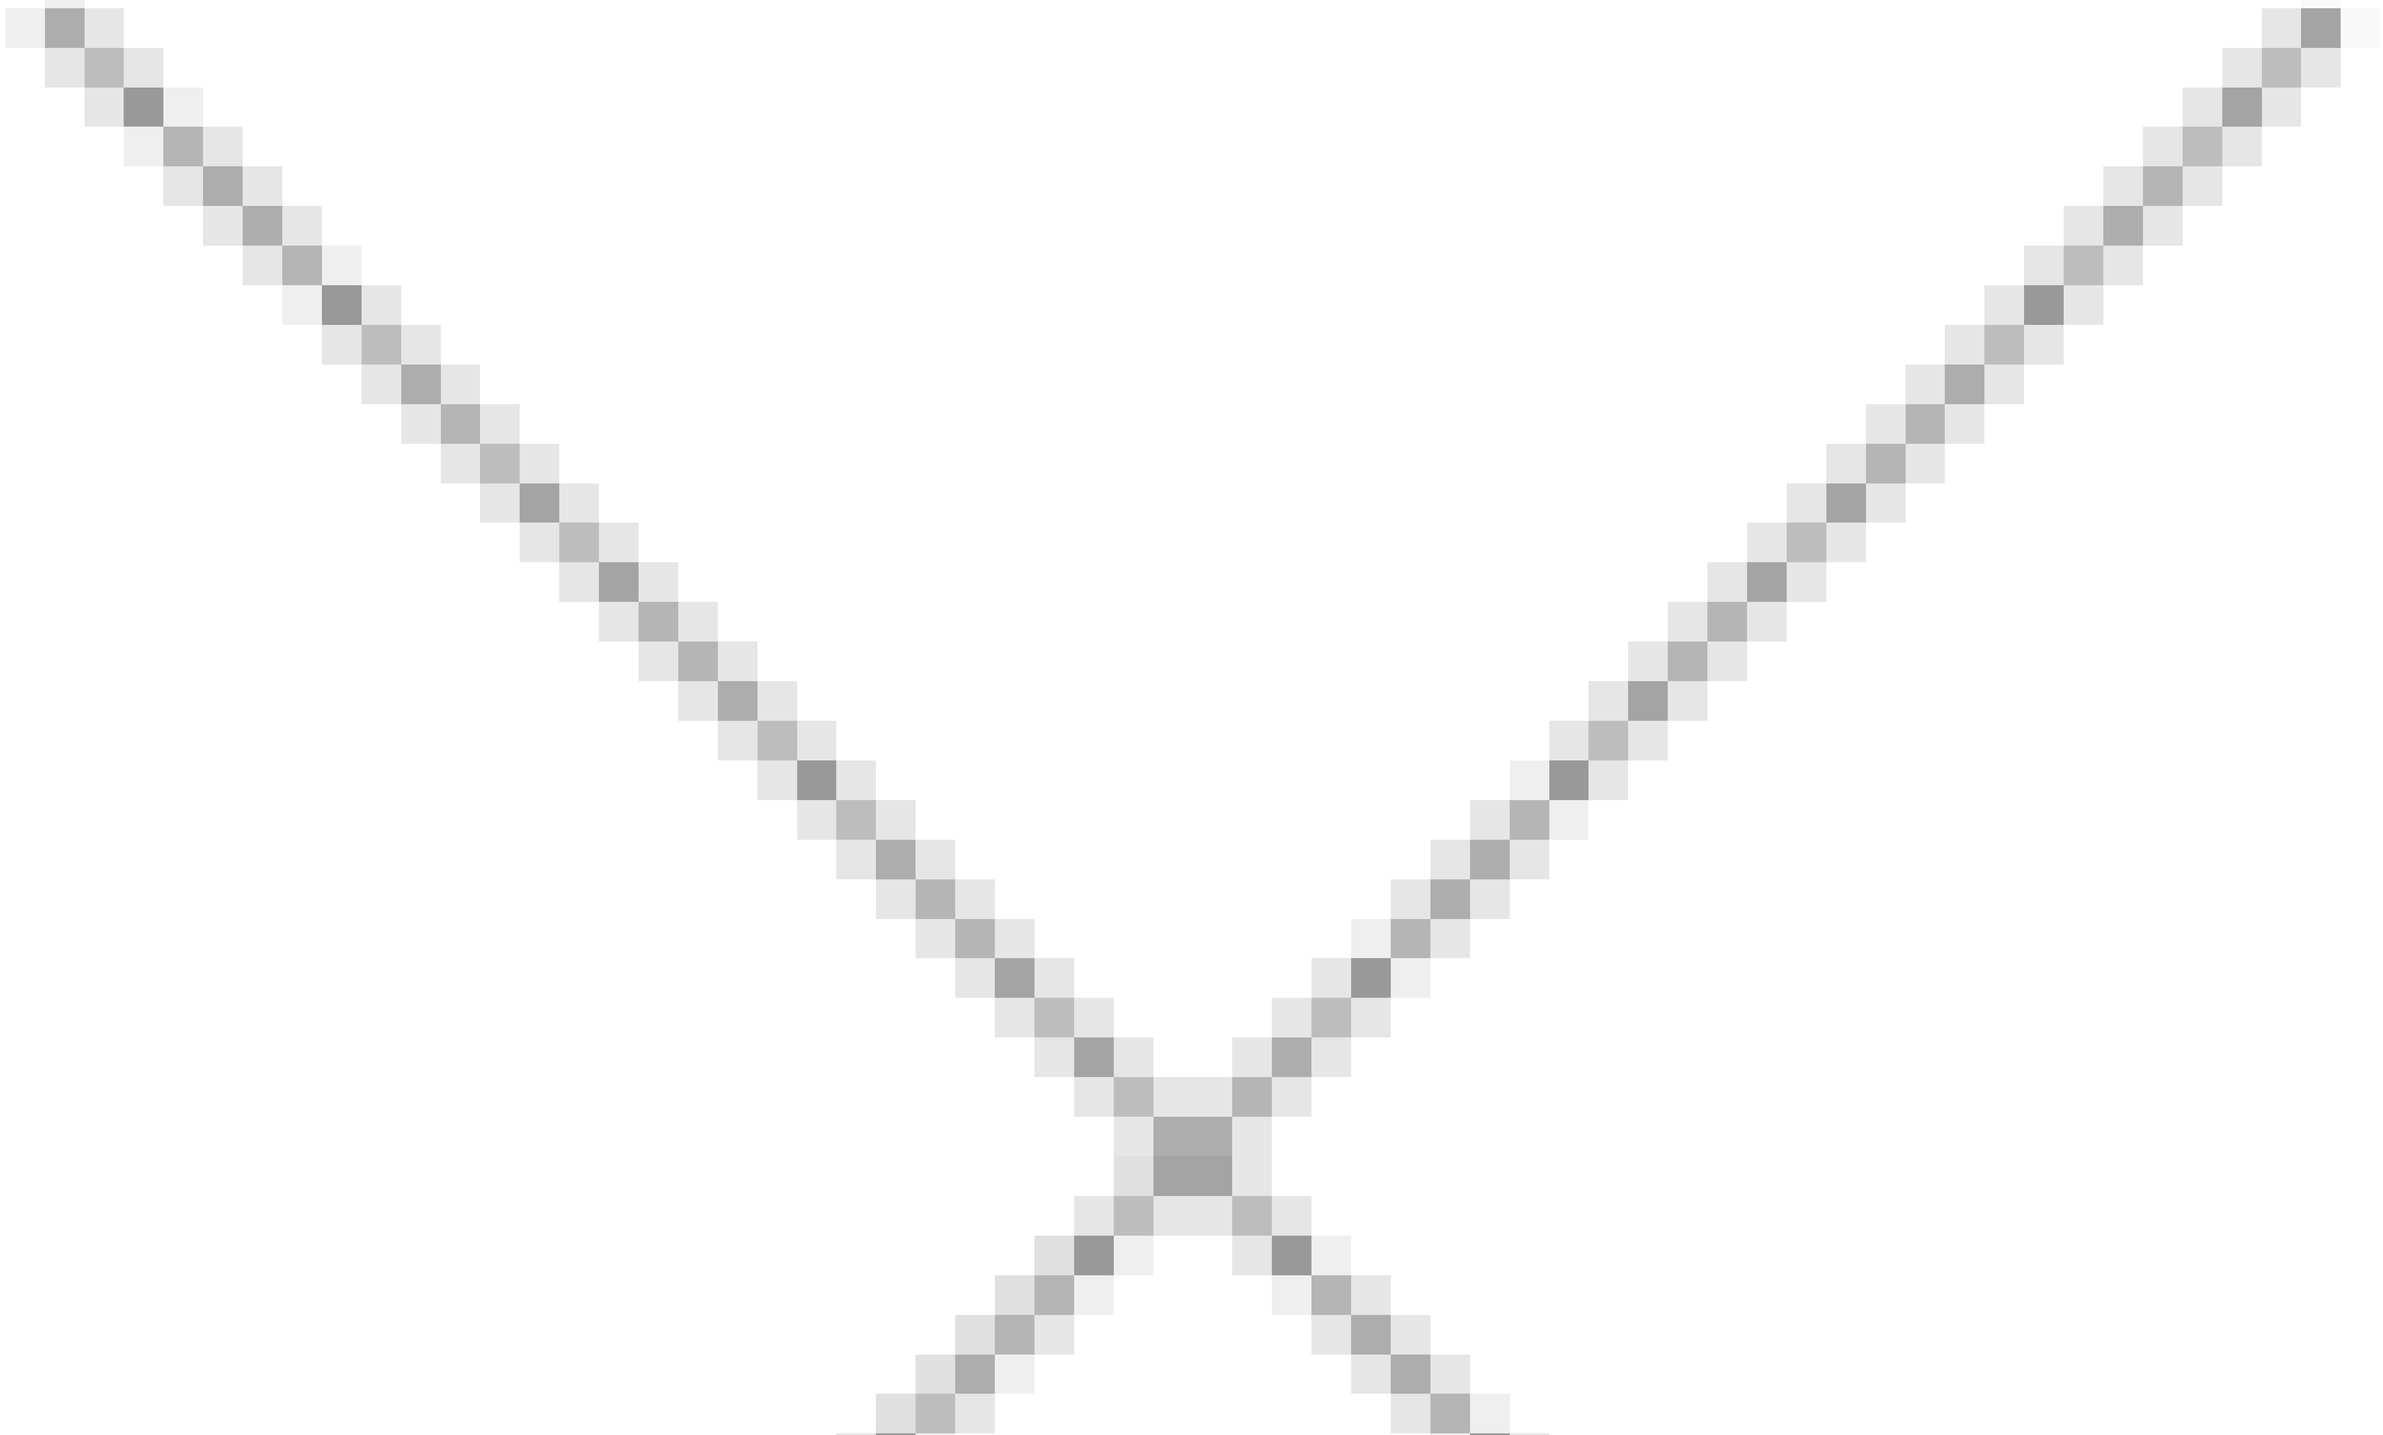
KZ CHASSIS mod.MATRIX tube Ø30-32mm wheelbase 1048mm CIK/FIA 015-CH-65 * MAGNESIUM CONFIGURATION*** MOD. 2026**



CHASSIS DESCRIPTION:

The MATRIX chassis is a high-performance vehicle suitable for tracks with little grip, thanks to the frame composed of Ø30 tubes excluding the rear crossbar composed of Ø32 tubes which provides greater traction. The magnesium version makes the chassis lighter and guarantees more consistent performance, especially in seasons with high temperatures. In addition, the magnesium bearing support favour load transfer in bends.
